Germany, Vol. 77, No. 1/2, Feb. 21, 1995, pp. 16, 18, 21-22, a foreign language document for which a certified translation is provided.

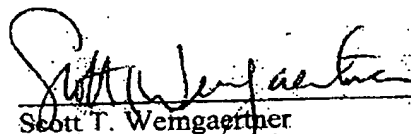

Applicant also brings to the attention of the U.S. Patent and Trademark Office U.S. Patent Application No. 10/227,087, now U.S. Published Patent Application 20040039477, commonly assigned with the above-referenced application. This application was filed after the earliest effective priority date of the pending application.

Applicants note that a reference reported in the original Information Disclosure Statement of July 2, 2003, EP 875023, commonly assigned with the above-referenced application, which was not initialed presumably because of language issues, is a counterpart of U.S. Patent No. 6,263,487, which was reported and also initialed by the Examiner. Transmission of an initialed copy of that reference is respectfully requested.

This Supplemental Information Disclosure Statement is being filed after issuance of the first office action and prior to allowance. Applicants authorize the Assistant Commissioner to charge the fee of \$180.00, and any additional fee that may be necessary in connection with this communication, to Deposit Account No. 23-1703.

Dated: May 5, 2005

Respectfully submitted,
